

Air Pollution Control Technology Memorandums

MEMORANDUM

TO: Developers and Vendors of Air Pollution Control Technology

FROM: Jack Farmer, Environmental Technology Verification (ETV)
Air Pollution Control Technology Program

SUBJECT: Stakeholders Advisory Committee Meeting

DATE: July 1, 1998

There will be a meeting September 17, 1998, of the Stakeholders Advisory Committee (SAC) for the Environmental Technology Verification (ETV) Pilot Program in Air Pollution Control Technology (APCT). The meeting will be at the US EPA's Environmental Research Center's Classroom #1, 86 T. W. Alexander Drive, Research Triangle Park, NC. The meeting will start at 8:30 AM and end at approximately 4:00 PM. The meeting is open to the public. Meeting topics will include status reports on the first technologies selected for verification testing: paint overspray arrestors, baghouse filtration products, and add-on NOx controls. We will also begin discussing candidates for the next group of technologies for verification testing. So that we may properly gauge space needs, please RSVP before September 1 to Jenni Elion, Research Triangle Institute, by fax at 919-541-6936 or by email at jme@rti.org, if you plan to attend.

Additional information on EPA's Environmental Technology Verification Program is available at www.epa.gov/etv/. Additional information on the Air Pollution Control Technology Pilot Program is available at etv.rti.org/apct/index.html. Information on travel, including directions and a list of local hotels, is on the web at etv.rti.org/apct/travel.html.

Please contact Jenni at 919-541-6253 if you have any other questions or if you wish to be removed from the distribution list for information on the APCT ETV program. To receive further information via email, please send an email to jme@rti.org.
